

Release Notes - Flexicoder: v8 SP8

335: Allow recoding on SOP line extender fields

You can now recode sales transactions based on Extender fields that you have placed on the sales line items.

261: Flexicoder will not recode eConnect transactions

Transactions that were generated through eConnect were not being recoded before being posted.

365: Cannot recode on eXtender fields

The Flexicoder setup was not saving the recoding settings for Extender fields.
